SHORT COURSE TRUCK

RTR

PR Racing SC201 RTR 1/10 Electric 2WD Short Course Truck

PR Racing would like to introduce the all new SC201 10th scale RTR Shortcourse Competition Truck Part Number: PR69480076

The SC201 has been designed by some of today's best engineers and racers alike. The SC201 Platform has won countless races and championships throughout the United States, UK and beyond! PR Racing takes a lot of pride in using the very best materials in the industry throughout the SC201. This RTR brings you all the instant satisfaction you can expect from a Championship winning Competition Shortcourse Truck. If you're looking to have fun, bash, or even hit the local track, the SC201 by PR Racing is the RTR Shortcourse for you!

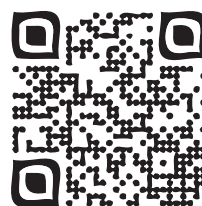

The SC201 Shortcourse by PR Racing comes standard with mid motor transmission design, which keeps you stable and competitive! Precision ball bearings by PR Racing are used throughout which allow your SC201 to glide over the terrain with ease. PR Racing offers the largest bore shocks in its class which allows the SC201 to soak up the bumps and land jumps with ease while at the track! The SC201 is completely adjustable and tunable with many options parts to further dial in your ride!

Description

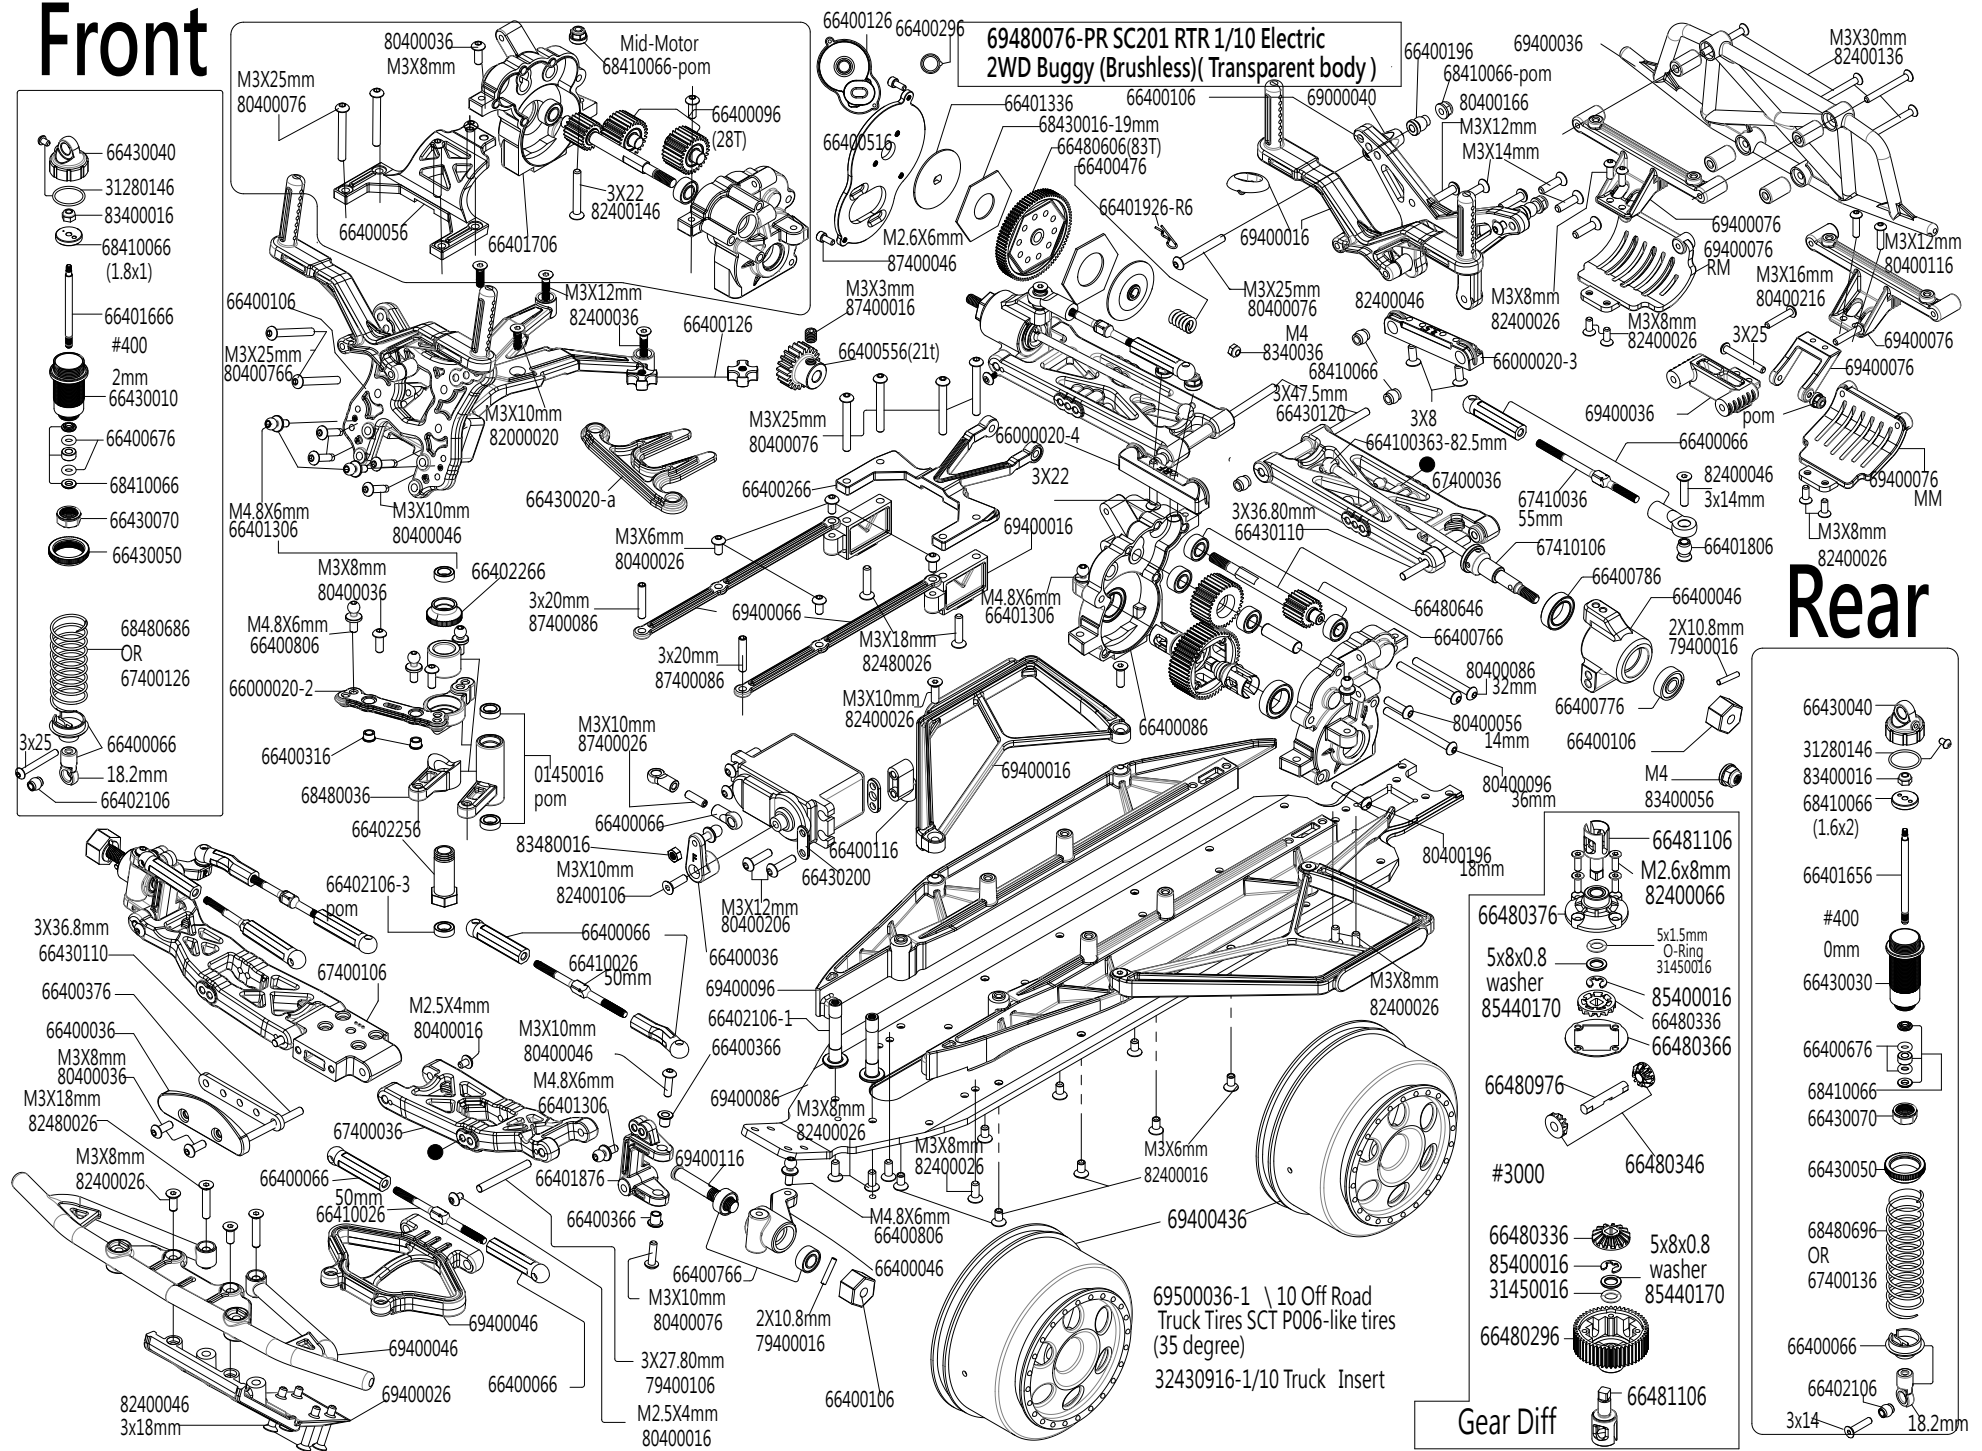

Specifications:

- High Power Sensorless 3900KV Brushless Motor
- Powerful Brushless Electronic Speed Controller
- 2 Channel 2.4Ghz Surface Radio System
- High-Speed 6kg Servo
- Unpainted Body
- Full metric hardware
- Sealed Metal Ball Bearings
- 12mm hex Wheels (front and rear)
- Oil-Filled 13mm Big Bore Plastic Threaded Shocks
- Steel CVD Driveshafts
- Width: 296mm
- Wheelbase: 329mm
- Gear Ratio: 2.6:1
