PR SB401 RTR 1/10 ELECTRIC 4WD BUGGY

RTR

**Name: PR SB401 RTR 1/10 Electric 4WD Buggy
(Brushless)(Transparent body) PART NO:PR68400456**

PR Racing introduces the SB401 10th scale Competition 4wd off road Buggy RTR (Ready to Run) competition model.
PR Racing has used years of competitive knowledge to bring you the very best RTR 4wd on the market! The SB401 4wd Buggy

10th scale buggy is extremely easy to work on while offering many tuning options and unrivaled durability.

The SB401 RTR front suspension is equipped with advanced steering blocks and shock towers to improve

steering reaction and stability on the track, while high quality carbon fiber shock towers offer extreme durability and rigidity. The SB401 RTR Kit comes with the same parts the professional racers use to compete at the highest level worldwide. The SB401 4wd RTR Buggy is extremely versatile and can be fine tuned for many conditions. The 12.75mm big bore shocks soak up any terrain and are fully adjustable including rear lateral shock positioning (front or behind rear shock tower)

PR Racing also offers a wide range of precision machined shock pistons to further fine tune your PR Racing suspension for any terrain. The SB401 comes standard with saddle pack or Shorty pack capabilities, front and rear motor options and much more!

This buggy will give you the competitive edge and durability needed to have fun at the park or compete at the local track! The SB401 comes with machined bevel and pinon gears which are extremely durable and smooth. PR Racing takes pride in using the very best materials available to produce the most competitive and enjoyable vehicles in the market. Whether you are having fun chasing your dog,

racing your friend or competing for the World Championship the SB401 4wd buggy by PR Racing has you covered! Look no further for

a competitive Ready To Run 4wd Buggy!
